MeMINNVILLE, TENNESSEE. Saturday, Oct. 15, 1882.

#### Political.

Ohio has gone Democratic by from 25,000 to 30,000 majority, and has elected probably 15 out of 21 Democratic members to Congress.

West Virginia has also gone Democratic by a reduced majority.

The Fifth Congressional District of Tennessee, in convention at Tullahoma, Wednesday, nominated Hon. Richard Warner for Congress, on the 51st ballot. Gen. Bright, for the sake of harmony, withdrew his name in a patriotic speech, after the 48th ballot.

We omitted to mention last week that the Senatorial Convention which met at Smithville last week nominated heavy production of 1879 and 1880 Personal ends should be made subser-Hon. M. D. Smallman. Three counties only were represented, Warren, DeKalb and Putnam, Cannon sending no delegation. As it is we have two candidates, Hon. M. D. Smallman, of crop of the United States. While the action cannot fail to develop and en-Warren, the nominee, and Capt. J. C. New, of Cannon, independent. Cannon county and Capt. New think they rather shorter than last year. We a stronger tide of prosperity than we are entitled to the member this time, How this is we know not.

#### New Bailroad.

A proposition is before the people of Nashville to build a railroad from Stanford Ky., via Gallatin to Nashville. A large number of the business men of Nashville met on the 11th inst., to con-bushel, sider the proposition, and take such steps as were necessary in the matter. Appropriate committees were appointed to confer with the county and city author. Ed. Standard; ities in reference to the matter. It looks as if there was something in it. compete with the L. & N. R. R. Col. Munday of Gallatin thinks the road would be of great advantage to the

"Kentucky Live Stock Record" says; to have a surplus of money. The coun-"The Vanderbilt Flagstone has been the subject of as much comment as the Vanderbilt houses. People stop at the you meet wants to buy some sort of dimensions with their eyes: they pace through out the country. Corn is betthinking perhaps, what a neat fittle his side walk. But such a thing is only interesting as a curiosity, and the when he descends the steps of his fine new house, will set foot on a bit of York, but how insignificant are they when compared with the stones used "there shall not be left one stone upon another, that shall not be thrown down?" Josephus says of these stones; "For six and produced no effect: the size and and enterprising men in this neighborjointing of the stones was too strong for it and for all others." These stones were of the whitest marble and about 70 feet in length and more than nine of Mr. Wm. Ramsey. There has been feet broad and seven feet thick. New some wheat sown. We see Geo. Strond York may be the home of the richest has some up and we truly hope he may man in the world, and may possess make as much as usual, (3 to 5 bushmany curiosities but we prestime there els per acre.) Not one stone was left upon another.

mers' Friend, claims that an acre of good clover will make 5,000 pounds of good hay, containing 2821 pounds of mineral matter or ash. In this ash will be 97½ pounds polash, 36 pounds lime, 34½ pounds magnesia and 28 pounds phosphoric acid and the hay will contain 108 pounds combined nitrogen. These are the stores of wealth which an scre of red clover offers to succeeding crops when it is plowed under, and the scythe leaves in the field as much material as it removes, which is stored in the roots and stubbles. This is enough phosphoric acid for double an average crop of grain, nitrogen for four crops and potash for six crops. He says that with such figures before them it is no wonder that farmers are surprised at the large crops they can raise on a clover sod.

#### Crop Report.

We have received the special report from the department of Agriculture at Washington for the month of September, 1882, on the condition of corn, cotton, potatoes, fruits, etc. It is an interesting document. From it we learn the condition of crops in the vathe Obio river is in high confition in plies this want.

every State except West Virginia; represented by 100 or higher figures. In many districts in the South the crop is reported the best in 20 years. #### The Future of McMinnville.

The material conditions that give growth and prosperity to cities and new departures must be introduced, "In the corn growing States of the and new life and energy must be

injure the crop the product will be materially larger than last year, but the liberal public spirit among our people. can not be approached under the most vient to the public good. A spirit of selfishness is by no means consistent The above will give our farmers with a genuine spirit of public entersome idea of the condition of the corn prise. Unity of thought, feeling and the Northern and Eastern States are public enterprises that will bring to us large crops South. We will yet have numerous avenues to a newly awakened a market for our surplus. Take care prosperity that we ought not to be slow of it as you would an ordinary year, to see and occupy. Our manufacturing and if you cannot find a market for it interests, already flourishing, should reat as high a price as 50 cents per bushel | ceive largely increased favor, patronage, keep it and feed it to your stock. Corn and encouragement. Other enterprises cannot be produced any time in this of this character might profitably be country for less than 50 cents per inaugurated as a result of a surplus of capital growing out of a change in present lines of business. Our money should be invested at home, as we shall find that this policy in the end will lead

to the most profitable results. in the increased popularity of McMinnville as a summer resort. Much can be done in aid of this enterprise in various ways. All can do something in and pleasure hunters during the different seasons of the year. The public well we are soon to have will add greatly to the attractiveness of the we cannot afford to let fail.

is the agricultural interests of Warren county. The farmer must be encouraged to look to the very best results to be obtained by new and improved H AVING sold out my business interest methods of agriculture. He must be encouraged to make greater efforts to improve his condition in every possible way, and thus the country will be built

Another important means of building up a new prosperity in our midst is by a greater substantial encouragement of the schools of McMinnville. We have good schools, have always had them. Yet we have long followed the plan of selves. We have manifested no special interest in them. It is impossible to maintain flourishing schools in any town unless they are supported heartily and earnestly by a strong home patronage and influence. Every possible encouragement should be extended to the schools of our town. There ought to be at least one hundred young ladies and young men here in our schools of prosperity as this in our school interests, and if we will lay aside all hurtful prejudices and go earnestly to work we can give our little city such a character as an educational point as it never had before, and thereby promote in the highest degree the prosperity and material advancement of our town and community. Few towns of equal size can compare with us in the matter of school buildings. Now let us put into these schools whatever may be lacking to make them as efficient as any in the land, and let us all work with one mind and one will till we see them crowded to their utmost capacity. Here is our grand opportunity, and now that our schools are showing signs of increased activity, let us seize the auspicious mo-J. P. Clark elected County Survey. ment and press them forward to the highest possible state of prosperity,

## A Beneficient Action.

The miserable look and feeling of or Bowels. Parker's Ginger Tonic J. D. Evans, et al., vs. J. H. Evans without intoxicating has such a beneficient action on these organs and so cleanes the poisonous matter from the system, that rosy cheeks and good B. #### [From the Springfield Republican.]

A GENEROUS ACT That Will be Appreciated by all who

Care for their Complexion and Skin. It is not generally known that the nervous

ystem has a wonderful influence over the kin, but this is a fact known to medica men who have given much of their time to the study of diseases of the skin. No one can have a clear and fair complexion unmixed with blotches or pimples who is very

Whatever tends to a bealthful condition of the nervous system always beautifies the complexion and removes roughness and dryness of the skin. Some skin diseases are not attended by visible signs on the surface, but an intolerable itching that renders life

We copy the following deserving and in. teresting compliment from the Tribune; which says: "Dr. C. W. Benson's New Remedy, 'SKIN CURE,' is received by the public with great confidence, and it regarded as a very generous act on the Doctor's part to make known and prepare for general use his valuable and favorite prescription for the treatment of skin diseases, after having devoted almost his entire life to the twand treatment of nervous and skir discuses, in which he took great delight. He was for a number of years Physician in charge of the Maryland Infirmary on Dermatology, and anything from his hands is at once accepted as authority and valuable. The remedy is fully the article to attack the disease, both internally, through the blood, and externally, through the absorbents, and is the only reliable and rational mone of treatment. These preparations are only put up for general use after having been used by the Doctor in his private practice for years, with the greatest success, and they fully merit the confidence of all classes of sufferers from skin diseases," This is for sale by all druggists. Two bottles, internal and external treatment, in one package. Don't be persuaded to take any other. It costs one dollar.

#### Oh, My Head! WHY WILL YOU SUFFER?

Sick headache, nervous headache, neuraliu, nervousness, paralysis, dyspepsia, sleeplessness and brain diseases, positively cured by Dr. Benson's Celery and Chamomile Pills. They contain no opium, quitine, or other barmful drug. Sold by druggists. Price, 50 cents per box, two boxes for \$1, six boxes for \$2.50, by mail, postage free.—Dr. C. W. Benson, Baltimore, Md.
